

spore

PLANE address numerals

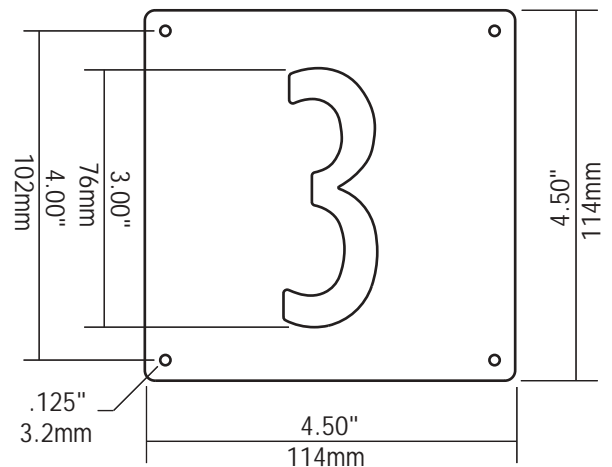

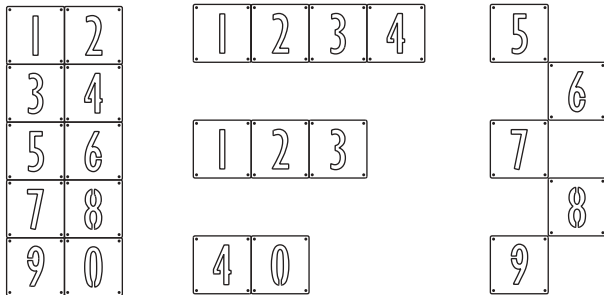

PLANE numbers are constructed of heavy 16 gauge stainless steel. The numeral forms are removed, allowing the mounting surface to show through. The 4 1/2" square shape mounts easily in horizontal and vertical orientations. Four stainless steel screws are provided.

Use these numbers for street address, room number signs or any other place you need a number.

Design: Tom Gordon and Ted Pierson, 2001.

Model: NMP-(Numeral)

Numerals: (1), (2), (3), (4), (5), (6), (7), (8), (9), (0), (A), (B), (C)
